Add the Wrestling Timer widget

Revision 2026-10-11

Add the Wrestling Timer home screen widget and open a recent or active timer.

Put a Wrestling Timer widget on your iPhone Home Screen for a quick look at a recent or active timer.

Live Activity shows for Practice, Live Goes, Full Match, and Stance and Motion. For Live Goes, Full Match, and Stance and Motion it is off when that timer runs inside a Practice session.

Add the widget

1. On the iPhone Home Screen, touch and hold an empty area until the apps jiggle.
2. Tap **Edit**, then **Add Widget**.
3. Search for **Wrestling Timer**.
4. Choose a size, tap **Add Widget**, then tap **Done**.

What you will see

1. If nothing is active yet, the widget says **Start a timer in the app**.
2. When a recent configuration is available, sample labels include **Practice Timer** or **Live Goes · 5 rounds**.
3. Tap the widget. It can show **Tap to open** to jump into the app.

Start a timer in Wrestling Timer first if the widget still looks empty.
