Sync custom playlists with iCloud

Revision 2026-10-12

Turn on iCloud Sync for custom playlists and sync now when needed.

Keep custom playlists in sync across your Apple devices. Audio files stay on each device and download from the app catalog.

Turn sync on

1. Tap **SETTINGS**.
2. Under **Account & Sync**, tap **iCloud Sync**.
3. Turn on **Sync Custom Playlists with iCloud**. The same switch appears during welcome setup on **iCloud Sync** (**Step 3 of 5**).
4. When sync is available, tap **Sync Now** to refresh.

Status lines under the toggle show whether iCloud Sync is on, off, syncing, or needs attention.
