Save and reuse practice templates

Revision 2026-10-10

Keep reusable practice layouts as templates and start new plans from them.

Templates store reusable sections and timing only. They don't have practice dates.

Create a template

1. In **Practice Planner**, select the **Templates** tab.
2. Select **Create template** and give it a name.
3. Add the sections and times you use most, then save.

Start a plan from a template

1. Select **New plan**.
2. Pick your template under **New plan from template**.
3. Change anything for today, then save.

Change or remove a template

On the **Templates** tab, select **Edit** or **Delete** on the template.
